# Welcome!

Research has found that a typical kitchen will waste between

## 5-15%

of the food they purchase due to *over ordering*.

Whilst some of this can only be avoided by assessing stocking and purchasing strategies, there are some ways that you can reduce the amount of waste you produce by being creative with your menu.

This guide is a collection of some of our favourite recipes that our development chef, Paul Dickson has created to solve some of the biggest causes of waste. From creative ways to use up leftover croissants to maximising your festive produce, we hope you'll find some inspiration to add to your menu or specials board and reduce the amount of perfectly good food that ends up in the bin.

## GNOCCHI WITH

# Crispy Potato Skins

This recipe uses the whole potato, including the skins, so there is no wastage.

### INGREDIENTS

200g **Country Range** Plain Flour

½ tsp **Country Range**  
Dried Mixed Herbs

100g **Country Range**  
Tomato and Basil Sauce

50g **Country Range** Pesto

50ml **Country Range**  
Vegetable Oil

1 tsp **Country Range** Salt

½ tsp **Country Range**  
Cracked Black Pepper

300g Maris Piper potatoes

3 eggs, beaten

1 onion, diced

½ courgette, diced

¼ aubergine, diced

1 bunch fresh basil

15g Parmesan

1. Preheat the oven to 200°C / 180°C fan and place the washed potatoes on a baking tray. Prick them with a fork a few times and bake for 40 – 45 minutes.
2. While the potatoes are still hot, hold in a tea towel and scoop out the flesh, keeping the skins to one side.
3. Pass the potato through a sieve into a large bowl.
4. Add the seasoning and mixed herbs.
5. Make a small well in the middle of the potato and add one beaten egg at a time, folding it into the potato with a sprinkling of flour.
6. Keep repeating the process until all of the egg and flour is incorporated.
7. Roll out the dough into sausage lengths and cut into 3cm pieces.
8. Press one side of each piece with a fork to form lines (this helps to absorb more sauce later).
9. For the sauce, fry your vegetables in oil until soft, then add the tomato and basil sauce.
10. Add the pesto and season to taste.
11. For the crispy skins – take the potato skins that you put to one side earlier and brush each in butter. Bake them in the oven until very crispy. Take them out of the oven and cut them up into nice bite sized chunks.
12. Drop the gnocchi, six at a time, in salted boiling water until they float and then keep warm on tray. Continue until all the gnocchi are cooked.
13. Fry the gnocchi in butter and then fold into your sauce.
14. Serve and garnish with crispy skins, fresh basil and grated parmesan.
